

According to the Directives of the European Parliament and Council:

- 2014/68/EU (PED) – Pressure Equipment Directive
- 2006/42/EC (MD) – Machinery Directive

Manufacturer:

Scuba Service s.c.
ul. Stoczniewców 9, 03-982 Warsaw, Poland
www.gasbooster.eu

Declares that the product:

PG-03 PLUS Pneumatic Gas Compression Device

contains no electrical or electronic components. It operates solely on compressed air.

Complies with the essential requirements of the following EU directives:

- 2014/68/EU – Pressure Equipment Directive (PED)
- 2006/42/EC – Machinery Directive (MD)

Not subject to the following directives:

- 2014/30/EU – Electromagnetic Compatibility Directive (EMC) – no electronic components
- 2011/65/EU – RoHS Directive – no electrical components
- 2014/34/EU – ATEX Directive – not intended for use in explosive atmospheres
-

Applied harmonised standards:

- EN ISO 12100:2010 – Safety of machinery – General design principles
- EN 13445 – Unfired pressure vessels
- EN ISO 4414 – Pneumatic systems – Safety requirements
- EN ISO 13857 – Safety of machinery – Safety distances
- EN ISO 13849-1 – Safety-related parts of control systems
- ISO 8573-1 – Compressed air – Purity classes

Product description:

Pneumatic device for transferring and compressing non-oxidising gases, and – after appropriate decontamination procedures – oxygen. The device is designed for continuous operation in industrial environments and by entities involved in filling, transferring or distributing technical gases.

Disclaimer:

The PG-03 PLUS device is not intended for use in explosive atmospheres (according to Directive 2014/34/EU – ATEX).

Place and date of issue:

Warsaw, 01.12.2025

Authorized person for technical documentation:

Aleksander Chmiel
Scuba Service s.c. Stefan Dratwicki, Bożenna Chmiel
ul. Stoczniewców 9, 03-982 Warszawa
Polska
